Dear Board Members,

The purpose of this letter is to acknowledge and recommend Lady Bug Landscape Services to you for any future consideration you may have. The Salvation Army had originally requested a bid quote from Lady Bug, among many others, for our facility in Lake Worth, FL, in 2004. They responded promptly, had great suggestions and approached the job in a most professional manner. It was an easy decision that, upon completion of that project, we immediately requested them to re-design the landscaping at our Administrative offices on Palm Beach Lakes Blvd.

They have been our sole landscape company since then and we are extremely pleased with their performance. They have done what they said they would, are prompt in their responses to any concerns or questions we may have, and are priced competitively. Importantly, they have also replaced a couple of palms that had died at no cost to us and in a most timely manner.

We have also used them for hurricane damage work and tree-removal. Regardless of the type work we have requested of them, they are always professional and courteous and the crews they employ are diligent and complete in their work.

Being a non-profit agency, we are conscious of budgetary constraints, and in this regard, Lady Bug has presented various alternatives to keep us within the limits we have established. Their input on the many alternative decisions we faced has been invaluable. We are now in the early stages of a very large project in West Palm Beach and plan on utilizing them for that work as well.

Should you have any questions please feel free to contact me at the number listed herein.

Respectfully,

Greg Rydman
Business Administrator
